

DOWSING WHEN TECHNOLOGY FAILS

Presented by

Sandee Mac

Sandee Mac has been dowsing since the 70's, is a lifetime member and the new Vice President of the American Society of Dowsters. She has been a popular speaker at many conferences for the past 20 years. Sandee has an extensive background in a multitude of modalities including Neuro Linguistics Programming (NLP) Trainer, Past Life Hypnotherapist, Inka Shamanic Practitioner, Ancient Healing Techniques, Core Belief Work and much more. She has adapted and uses Dowsing as the core skill in all aspects of her work. She travels extensively, teaching and learning, and now resides in the White Mountains of North East Arizona.

History shows us evidence of dowsing being used for thousands of years and through many changes of civilizations. From any perspective, we are also in times of massive change with perhaps even more vulnerability because of our dependence on technology. As Dowsters we have an outstanding advantage. Wisdom invites us to visualize only the positive, yet prudence says we must be prepared for other possibilities. How can we walk in both worlds at the same time? Together we will discuss some very real concerns, and like good scouts, learn through handouts, information, brainstorming and our dowsing tools. Come with questions, resources, ideas and your favorite pendulum for this lively and important meeting. Contact Info: P. O. Box 2217; Lakeside, AZ 85929; Tel: 505-577-5775; Email: sandeemac100@gmail.com.
